PROFILE

Freelance full-stack developer who builds websites, web apps and mobile apps for small businesses, from first sketch to deployment. I work mainly with Next.js, TypeScript and Supabase/PostgreSQL, plus Python/FastAPI backends and native iOS and Android apps. I add AI features like support chatbots trained on a business's own documents, and I ship with automated tests. Bilingual in English and Spanish, I communicate clearly with non-technical clients thanks to years in IT support and teaching. Systems Engineering student at UNADECA.

SERVICES

Websites & landing pages: fast, bilingual, mobile-first sites that turn visitors into inquiries.

Web apps & dashboards: booking systems, client portals and internal tools that replace spreadsheets.

AI features: customer-support chatbots that answer from your docs and hand off to your team.

Mobile apps: native iOS (SwiftUI) and Android (Jetpack Compose) apps on a shared backend.

TECHNICAL SKILLS

Frontend: Next.js, React, TypeScript, Tailwind CSS, HTML/CSS, Three.js

Backend & data: Supabase (Auth, Postgres, row-level security), PostgreSQL, Python, FastAPI, REST APIs, Docker

Mobile: Swift/SwiftUI, Kotlin/Jetpack Compose, Flutter/Dart

AI: Claude API, retrieval-augmented generation (pgvector embeddings), tool use, streaming

Quality & tooling: Git/GitHub, Vercel, Playwright, Vitest, XCTest, Figma

SELECTED PROJECTS

Relay — AI Customer Support Agent — *Next.js, TypeScript, Supabase, pgvector, Claude API*

Support chatbot a business trains on its FAQ in minutes and embeds with one script tag. Answers are grounded in the business's documents with sources cited, the bot hands refunds, complaints and unknown questions to a human, staff can take over chats live from a dashboard, and it tracks resolution rate and customer ratings. Multi-tenant with Postgres row-level security.

Encore — Instrument Rental Marketplace (iOS) — *SwiftUI, Supabase*

Peer-to-peer musical instrument rental app for Costa Rica with renter and host modes: search, a 4-step checkout with availability calendar, messaging, reviews, saved cards (brand and last 4 digits only) and an earnings dashboard. Fully bilingual, with a custom design system and 52 automated tests.

Presencia — Attendance Tracker (iOS + Android) — *SwiftUI, Jetpack Compose, Supabase*

Native apps for small-group leaders sharing one Supabase backend with row-level security. Leaders record a meeting's attendance in under a minute and see trends per group.

Personal Portfolio — *Next.js, TypeScript, Tailwind CSS, Three.js*

Bilingual portfolio with a cel-shaded 3D character, a working contact form with rate limiting, and end-to-end tests on desktop and mobile.

Maruchan University — Academic Management System — *Python, FastAPI, PostgreSQL, Streamlit, Docker*

Role-based platform for admins, professors and students covering courses, enrollment, assignments, file submissions and grading, secured with JWT and containerized with Docker.

EXPERIENCE

IT Support Technician — Bahamas Academy

Jul 2022 – Aug 2023

- Provided first-line support for staff and students across computer labs and offices, resolving hardware, software and network issues.
- Set up and maintained computers, printers and peripherals, and documented recurring fixes to speed up future support.
- Explained technical solutions in plain language to users of every skill level.

Medical Interpreter (Spanish – English) — Teleperformance

Jun 2024 – Aug 2024

- Interpreted in real time between patients and medical staff in a high-volume remote environment, with strict accuracy and confidentiality.

Spanish & English Teacher — Bahamas Academy · Instituto Adventista Guanaja

2021 – 2022

- Planned and taught language lessons for different skill levels, building the communication skills I now use with clients.

EDUCATION

Bachelor's Degree in Systems Engineering — *Currently enrolled · Expected graduation: 2027*

Universidad Adventista de Centro América (UNADECA), Costa Rica

Technical High School Diploma in Computer Science (*Bachiller Técnico Profesional en Informática*)

CEMNG Adventista Mangrove Bight, Guanaja, Honduras · November 2022

LANGUAGES

English and Spanish: fully bilingual (professional working proficiency in both).
